as Arrack and Toddy Shop
Paramboke - Transfer to Comm

Dev/Rev-25/11/53

Note to Office. 29113 29/10/53

Public (CP) Dept.

27-10-1953.

Enclosed are some orders of the Board and the Collector of South Kanara about Government poromboke lands originally reserved for toddy and arrack shops. These are the most suitable and in fact the only available sites for community halls. Office may examine in consultation with Revenue and Prohibition Departments whether we cannot get these sites for community halls.

D.C.P.

In S. Kanara D. we have agreed to the proposal of the P.E.O. to contribute only for 3 Community Halls through the Area. We C.P.A. have definitely stated that we could utilise the funds in the budget for construction of community halls if the public in the people who should provide the buildings. Of course the exemption in the case of S. Kanara has been agreed to.

Even if we get the poromboke we do not have the funds unless the people are willing to build the Halls at about some thousands of rupees each. If there a demand from the concerned people for land for the purpose being, move in the matter.

We may find out the P.E.O whether the Committees are willing to put up

Community Halls at their own cost & we can arrange to provide them into the Landing

~~In~~ their response we may consult depts

We may obtain the above information first, so that we will be having an idea in what places we should take steps to get such lands for building community halls on.

LAND - South Kanara - Disposal of land registered as arrack or toddy shop porambóke - instructions --

---

All Tahsildars and Deputy Tahsildars are informed that the Board of Revenue has in its L.Dis. B.7879/51 dated 16-2-1952 ordered that lands registered as arrack or toddy shop porambokes need not be assigned and that there is however no objectionto lease such lands wheneverfound necessary. The Board has observed that it cannot be now said definitely. that these sites willnot be required for excise purpose in future. The Collector therefore orders that this category of lands should not in future be assigned to anyone and that they may be proposed to be leased out to particulars individuals subject to the condition that the plots should be vacated whenever they are required by the Government. The lease may be proppsed either under B.S.O.15-A or 24-A with suitable modific tions in the conditions of the grant.

Memo No 29113 Agri (CP and M)/53-1 dt 18.11.53

Sub:- CPs - S.K. area - Arrack and toddy shop parambokes for Community Halls - Proposals

It has been suggested that the toddy and arrack shop parambokes in S.K. Project area should be made available for Constructing Community halls under the C.P. Scheme

2. The P.E.O. Mangalore is requested to furnish a list of places in which the beneficiaries are prepared to put up pucca Community halls with information as to whether sites are required for the purpose. Information may also be furnished whether in such places toddy and arrack shop parambokes are available with details of land such as S.No. name of village taluk extent available and required.

18/11/53
for 18/11/53

Note H.P.T. orders at P 2 of the memo above is put up for appl.

18/11/53 for 18/11/53

As instructed by you personally after your discussions
irector of Community Projects, who saw you in your office
on 21-1-1954, I am submitting this report for reco[illegible] of
he orders passed in your proceedings quoted above

The construction of Community Hall in Buntwal is an ite
pproved in the Overall programme. After local enquiries, the
ssistant Project Officer, Mangalore suggested that the Community
all may be put up in S.No.74/4 of Buntwal Muda village near
.C.Road, as no other suitable site is available anywhere in the
ocality. This site stands reserved for the future needs of
he Government. I understand that no specific need of the
overnment is contemplated in the near future, so far as th lo
s concerned. As this site is now required for locating the

Community Hall in pursuance of the approved Overall programme, I request that the question may be reconsidered and the plot placed at the disposal of the Community Project, so that the construction of the Community Hall may be taken up as quickly as possible. If, however, the Collector considers that no Community Hall is needed at the place, or if this site now propo cannot be made available for the purpose, I request th orders may be issued to place the matter before the Project Executive Committee meeting to have the item deleted. The favour of early orders in this matter

Community Projects - South Kanara District - Construction of Community Halls at Buntwal and Mudabidri - Further consultation with Collector - Result

S.V. As personally instructed by you, I saw the Collecto on Sunday (24-1-1954) on his return from camp. In regard t the Community Hall at Buntwal, he wanted me to revive the proposal in the light of your instructions and said that he would consider the matter again. I have already sent up a report requesting reconsideration of his previous orders.

As regards Mudabidri, he said that the plot is valuable, containing buildings and therefore he has decided to refer the matter to the Board. I pointed out that the old buildings fall within the sub Division proposed for the Veterinary Hospital and that this question may be dealt with separately in consultation with the Executive Engineer (P.W.D.) and that he may deal with the portion proposed for the Com unity Hall - where no buildings etc. exist - indepen of the other proposals relating to the Veterinary Hospital a the Poultry unit. He was not inclined to agree to this suggestion, though I pointed out that the sub Division propo for the Community Hall is in a corner, capable of an indepen access, on the ground that the entire plot which is within o enclosure will have to be dealt with together. Further, he expressed the opinion that valuable lands in urban areas, which would fetch revenue to the Government, if sold in auct should not be selected for locating Community Halls and that if the people are so enthusiastic to put up such halls, they should gift away private lands for the purpose. I said tha where suitable Government lands are available, nobody will b prepared to part with private land. Anyhow, he was not prepared to take the responsibility of allocating any portio

ommunity Hall: These proposals are pending with
he Collector. It seems advisable to give general
nstructions to the Collector that the Community Hal
ome under 'public purpose' and to give his decision
uickly as the works cannot be held up too long.

Only in Mundkur village of First Block, which i centre selected by the Project Executive Committee for the construction of a Community Hall, it is proposed to put up Community Hall in a plot standing registered as Toddy and Arrack Shop Poramboke. The S.No. of the plot, the name of the village and Taluk and the extent available are furnishe in the enclosed statement. This plot has been selected as there is no other suitable site for the purpose in this village. The drinking water well sanctioned in G.O.Ms.No. 1076 Public (Community Projects) Department dated 23-4-1953 is also proposed to be sunk in this plot and the beneficiar selected for the work has already started the work and ex excavation is in progress. In view of the Prohibition policy of the Government, the plot is not likely to be requ for toddy or Arrack shop purposes and it is also not likely to be required for any other purpose in the foreseeable fut The proposals submitted to the Collector for reclassificati of the plot as Community Hall Poramboke has been returned b him stating that under the existing rules, plots reserved a Toddy or Arrack shop porambokes cannot be made available fo any other purpose and asking me to select some other suitab site for the purpose. In view of the facts mentioned abov the Collector may kindly be requested to pass orders at an date reserving the plot as Community Hall and well poramboke As the construction of the building for which an estimate i already under preparation, has to be taken up quickly, he m also be requested to permit the Community Project Departmen to enter upon the plot pending final orders.

In no other case has a plot registered as toddy or Arrack shop poramboke been selected for the construction of a Community Hall

According to the overall programme, 18 Comm Halls have to be constructed in the entire project area at 6 in each block of which one is to be located at the Mandi Cent The aid from the Community Project in the case of a Community Hall at the Mandi Centre is Rs. 2,500/- and in other cases, it limited to Rs. 1,500/- The average cost of a Community Hall is about Rs. 6,000/-. The beneficiaries are meeting the bulk of this expenditure and the expenditure by the Community Proje is only a modicum of the total cost involved. The people are willing to bear this expenditure and as suitable sites at the disposal of the Government are available in most of these cent they request that such sites may be made available for the construction of these halls. Sites such as Assessed Waste la not

required for any public purpose, in the near future, lands reserved for the eligible communities but not suitable or likely to be made use of by them at any time, for the reason that the total extent reserved for them in a particular village is far in excess of their requirements and lands entered in the Prohibitive Order Book but not reserved for any specifi purpose, are available in almost all these centres. Such sites are being selected only when no other suitably situated Government site is available and proposals are being submitted to the Collector, for making available the lands standing registered as Assessed Waste in the revenue accounts, for disreservation of plots standing registered for the eligible communities and those entered in the Prohibitive Order Book as the case may be and for their reservation as Community Hall Porambokes. As there will be some inevitable procedural delay in passing final orders and as the works have to be completed with the utmost expedition, he is also being requested to permit the Community Projects Department to enter upon the plot and begin work, pending final orders. The Collector seems to be of the view that the sites selected are in some cases valuable lands as defined in the Board's Standing Order which would fetch revenue to Government, if sold in public auction, and as such he is not inclined in favour of making available such lands for constructing Community Halls. He also seems to be of the view that if it i absolutely necessary to have Community Halls in thes Centres, the beneficiaries should themselves gift away lands required for the purpose. As already stated above, the villagers are bearing the brunt of the expenditure involved in the construction of these halls and it will be too much to ask them to gift away lands also required for the constructic of the buildings when Government lands are available At Mudabidri, the Mandi Centre for Block II, they want a Community Hall costing Rs. 13,000/- out of which the Community Project is paying only Rs. 2,500/ and the entire balance of Rs. 10,500/- is to be met by them. In such cases, it will be too much to expect them to gift away private lands especially when the beneficiaries know that suitable lands at the disposal of the Government are available at these centres. I would also submit in this connection, that it does not seem to be a proper attitude to take that the lands applied for cannot be made available simply because they come under the category of valuable lands. The purpose for which they are required is a public one and there should be no objection to make them available if they are not likely to be required for any other pub purpose, now or in the near future. It does not als seem to be fair to the beneficiaries to take the attitude that valuable lands cannot be made availabl for such purposes, because the beneficiaries are meeting nearly three-fourths of the total expenditur involved and it is but fair that Government lands should be made available for the construction of these Community Halls, wherever such lands are available if the Project Scheme is to be implemented I, therefore, request that the Collector may kindly be requested to make available suitable lands for th construction of Community Halls on the recommendatio of the Project Executive Officer and to reserve such lands as Community Hall Poramboke. He may als be requested to permit the Community Project Department to enter upon the plots and begin work pending final orders regarding the change of classification in the interest of their speedy execution and early

completion.

As many of the works are held up for the reasons stated above, I request the favour of early orders.

Project Executive Officer.

Project Executiv
MANGALOF

To

The Director of Community Projects,
Agriculture (C.P.) Department
Fort St.George,
MADRAS - 9.

Sir,

Sub:- COMMUNITY PR... - South Kanara - Block II - Construction of a Community Hall at Mudabidri - S.No.151 of Marpady village - Permission to start work - Action - Requested

****

Mudabidri is a block centre in the Community Project area of this District and the construction of a Community Hall at this centre, with a contribution of Rs. 2,500/- from Community Project funds has been approved in the overall programme, sanctioned in Government Memorandum No. 22066 Public (C.P.)-I/53-1 dated 21-7-1953. The people of Mudabidri and the local Panchayat Board are keen on having a well-sized Community Hall to serve various community development activities at the place. The estimated cost of the proposed building is about Rs.13,000/- For this purpose, a portion of S.No.151 of Marpady village measuring about an acre which is very conveniently situated for Community activities was proposed and the Collector was requested to grant permission to enter upon the site. The whole of S.No.151 is a block of land measuring about 3 acres and a portion of it contains two old buildings. The history of the plot is that it was previously alienated to the Basel Mission for school purpose and subsequently the plot was resumed by Government with the buildings and it is now entirely at the disposal of the Government. The proposal now is to locate the Veterinary Hospital of the Community Project in the portion containing buildings, either by repairing and suitably altering the structures or by demolishing them, if they are beyond repair; to have a poultry unit established on another portion and to utilize one acre of vacant land situated on the extreme side for a Community Hall. Proposals were accordingly submitted to the Collector to reserve the 3 portions of the plot for the 3 different purposes, in this office Ref.C.No.2680/53 dated 12-11-1953 and it was further requested that permission to enter upon the land for putting up the Community Hall may be issued urgently.

2. While the matter was pending with the Collector, the local people who were very enthusiastic in putting up the Community Hall, began to press for immediate orders and in the last week of January, they began levelling the portion selected for the Community Hall, without waiting for Collector's orders. The urgency of the matter was brought to the notice of the Collector who happened to inspect the plot on 24-1-1954 and seeing that the people had already entered upon the plot and began levelling it even without his orders, directed them to stop further work till orders were issued. This attitude of the Collector damped the over-enthusiasm of the people and on that same day, when the Director of Community Projects (Sri T.S.Ramachandran, I.C.S.,) happened to visit the area, they represented the matter to him. The Director inspected the site and saw the Collector in his office that evening in that connection. The Collector was pleased to say that as th land is valuable and contains buildings, he was going to refe

n t o

the matter to the Board. As personally instructed by the Director, I saw the Collector 2 days later and suggested that the question of granting permission to enter upon the portion proposed for the Community Hall alone might be considered independently of the proposals for putting up the Veterinary Hospital and poultry farm so as to avoid the necessity of referring the matter to the Board, as it would be within the competence of the Collector to decide the question. The Collector, however, thought it advisable to refer the case relating to the entire plot to the Board in view of the previous history of the case.

3. It is learnt that the Board has referred the matter to the Government and orders are still awaited. The delay in according permission to start the construction of the Community Hall building on the portion of the plot, which is free from any objection, is causing dissatisfaction among the people and further delay is likely to create difficulties in putting up the Community Hall at the Block Centre. It was learnt during my camp at Mudabidri that the local Committee which had collected Rs. 8,000/- for the building was thinking of ~~referring~~ returning the amount to the donors, seeing that nothing was heard of about the construction of the hall. I met some of them and requested them to defer their decision of returning the money, as the matter was still pending orders of the Government. As the delay is already having its repercussions in the progress of other works under the Project scheme in the neighbouring areas, I request that the Director may be pleased to move the Government in the Revenue Department to pass orders in the matter as early as possible, so that the construction work may be started quickly and peoples' confidence in the implementation of the Programme with local assistance may be renewed, facilitating the early completion of various other items of work proposed to be undertaken in the neighbouring villages.

C. 29113/53)

Sub:- C.Ps. - South Kanara Dt. - Construction of Community Halls - Site.

Ref:- 1)From the P.E.O., Mangalore, No.529/54 dated 25-1-54 (copy endorsed).
2)From the P.E.O., Mangalore, D.O.2694/53 B dated 26-1-1954.
3)From the P.E.O., Mangalore, L.Dis.670/54 dated 1-2-1954.

--o--

Please see the letters of the P.E.O., Mangalo dated 25-1-1954, 26-1-1954 and 1-2-1954 in which he expresses some difficulty in securing sites for the construction of Community Halls from the Revenue De

In our Memo. dated 18-11-53, he was asked to furnish details regarding sites required for Commun Halls and to state whether "Toddy and Arrack Shop Porambokes" are available.

The P.E.O., Mangalore has mentioned three pla where Community Halls are proposed to be constructed.

i) S.No. 74/4 of Buntwal Muda village near B.C. Road.

ii) S.No.14/7 of ~~Kudkur~~ Mundkur Mangalore Taluk - ·57 acres.

iii) Mudabidri.

From the letters of the P.E.O., it is seen that the Collector of South Kanara dt. is not willing to make available the lands registered as "Arrack and Toddy shop poramboke" or lands entered in "Prohibitory order book" or lands reserved for other "Public Purpose" etc. for the purpose of constructing Community Halls.

The P.E.O. has suggested (1) that general instruction be issued to the Collector that the Community Hall also comes under "Public Purpose."

(2) that the Collector may be requested to permit the Community Project Department to enter upon the land pending final orders regarding the change of classification in the interest of speedy execution and early completion of the work connected with the construction of Community Halls.

The sites are generally reserved under different categories as "Toddy shop Poramboke" or for other "Public Purpose" under orders of the Board of Revenue (Land Revenue) or the Govt. (Rev. Dept.) and as such, it will not be possible for the Collector to agree to the proposals of the P.E.O. without the orders of the Board or the Govt.

It is submitted in this connection that the provision under 'Community recreation centres' is for grants towards equipments only. But the C.P.A. has been specially requested to approve the construction of 3 buildings for 'Community recreation centres' at one each in the Mandi centres, subject to the total expenditure for each area being limited to Rs.30,000. The P.E.O., Mangalore had proposed in the overall programme the construction of 1 Community recreation centre and 5 Community blocks for each of the 3 blocks holding that only 18 such centres will be needed instead of 60 indicated by the C.P.A. The overall programme has been communicated to the C.P.A. It is for consideration whether the C.P.A.'s approval may have to be awaited especially with regard to Community recreation centres, as the actual proposals for the same are not on the lines of the C.P.A.'s proposals. If necessary, they may be addressed to accord approval, after obtaining more details from the P.E.O.

Revenue may also see for remarks.

To A.S.

Please see the "notes on pp 1-2 ante.

2/ It is proposed to construct Community Project Halls in the three places mentioned at 'A' on p. 1 ante. It is stated that the Collector of South Kanara is not willing to make ~~available~~ the land registered as "Arrack and Toddy Shop paramboke" or lands entered in the "Prohibitory Order Book" as lands reserved for other "public purpose" available for the construction of Community Recreation Centre as no doubt a public purpose and the lands required for the purpose should be transferred to that dept. However it seems desirable to obtain the specific remarks of the Collector of South Kanara regarding the three sites required by the Community Project dept before issuing their transfer. With these remarks the file may be sent to Agri (C.P.) and they may be requested to let Home dept also see the case.

Agri (C.P.) might request to obtain the remarks of the Board of Rev. in the matter.
